THE **BOOTH** MUSEUM

Till the Cows Come Home

Help Rodeo Joe round up his cattle! Build a barbed wire fence around Joe's cattle herd. Use his directions to get started:

1

Build on the posts already in the ground

2

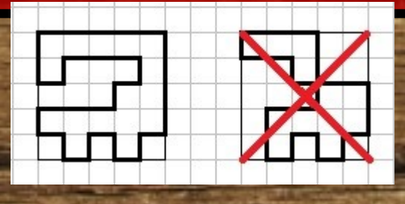
A fence can only go vertically & horizontally– no diagonals!

3

Build the fences next to the cows according to their number

4

The fence needs to go all the way around and close to keep the cows inside



Hint: Some cows might be "free range" and live outside the fence!
