1 North Gilmer Street  
Cartersville, GA 30120

**Call 770.387.3849 to register!**

### ABOUT THE WORKSHOP:

Perspective is the use of lines and angles to create the illusion of three-dimensional shapes. Sounds complicated, right? Not really, not when you remove the mystique of the word and realize that if you can draw a square, you can draw anything. In this workshop, we will give you the building blocks to understand one, two and three point perspective. We will begin with the basics of the geometric shapes most often found in perspective drawing and take you on a journey all the way to the proper perspective of shadows. Before you know it, perspective will become second nature!
