

Till the Cows Come Home

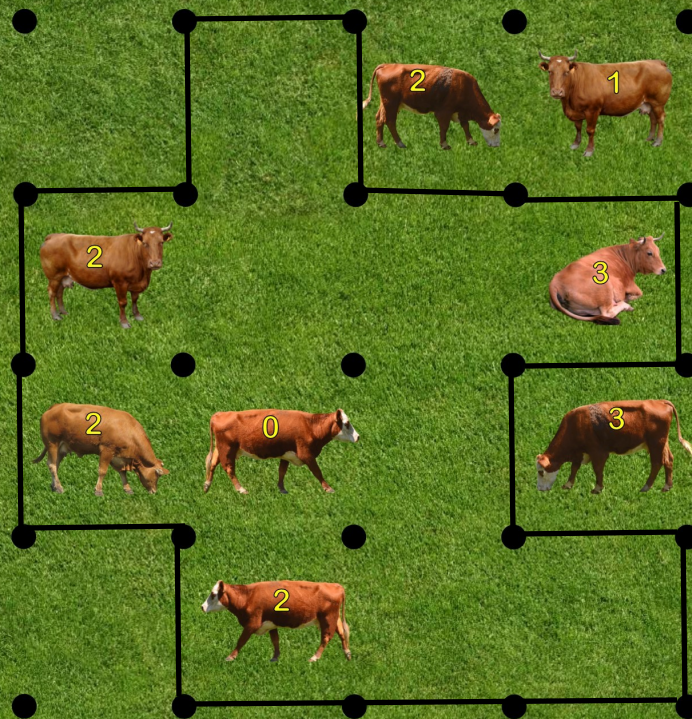

Help Rodeo Joe round up his cattle! Build a barbed wire fence around Joe's cattle herd. Use his directions to get started:

1

Build on the posts already in the ground

2

A fence can only go vertically & horizontally—no diagonals!

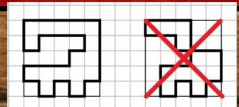

3

Build the fences next to the cows according to their number

4

The fence needs to go all the way around and close to keep the cows inside

Hint: Some cows might be “free range” and live outside the fence!
